NO-HA HANDLE

INVISIBLE HANDLE

Design to blend into the door rather than stand out, No-Ha handles offer a minimalist solution where the hardware becomes virtually invisible. They preserve clean lines and enhance the design through seamless integration directly into the door surface.

NO-HA 937
Magnetic system for hinged door

NO-HA 105
Single-sided handle
NO-HA 205
Double-sided handle

WALL-MOUNTED SLIDING DOOR

This wall-mounted sliding system is designed to showcase the door. The track, sliding mechanisms and soft-close components are fully concealed behind the door, creating a minimalist and contemporary look.

This system does not require an aluminum frame. For a clean, streamlined look, we recommend the Integra baseboard along the floor.

INVISIBLE TECHNOLOGIES

CONCEALED TRACK AND CARRIAGES

The aluminum track and carriages are fully concealed within the door.

BOTTOM GUIDE

The bottom rollers ensure smooth and stable operation.

INTEGRA BASEBOARD

Designed for clean, minimalist spaces, this baseboard blends seamlessly into the drywall. Slightly raised, it is compatible with all Integra frames and manufactured with the same precision as our interior doors. It protects the base of the walls without compromising the architectural lines.

TECHNICAL CONFIGURATIONS

ROBUST MATERIALS

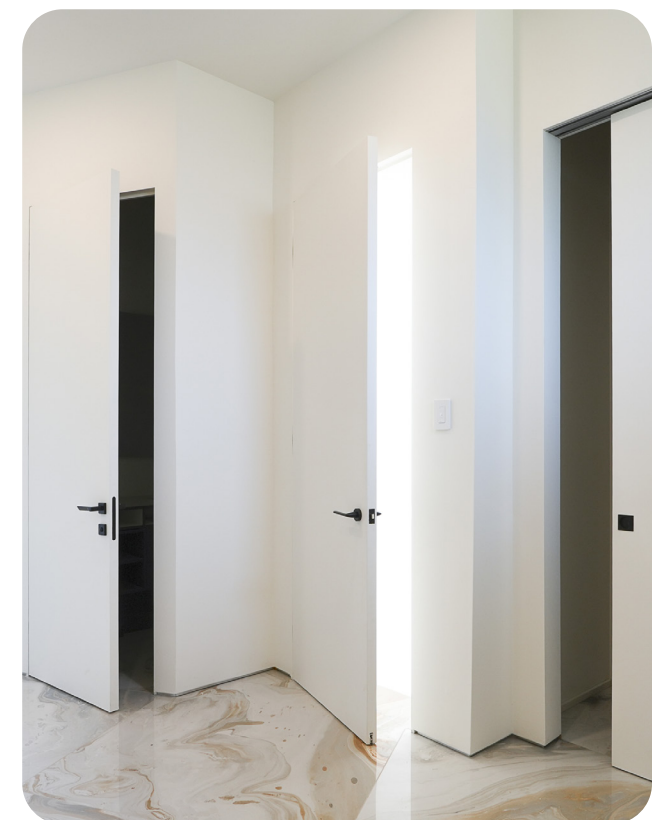

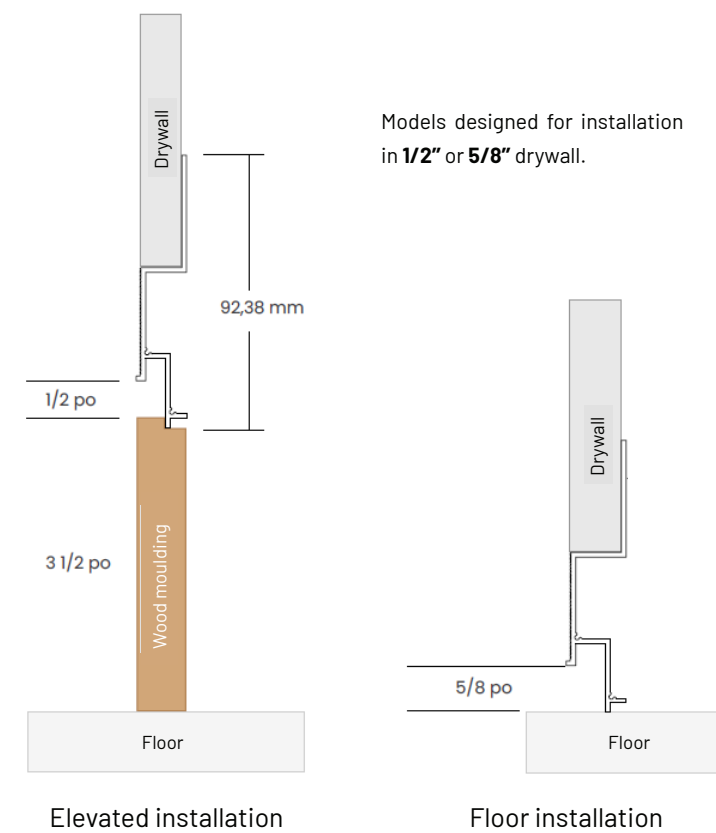

Made of a strong and stable aluminum profile, paired with a wood or wood-based baseboard.

CORNERS AND ANGLES

Available in configurations for 90-degree inside corners and outside corners, with 45-degree cuts for a clean, precise finish.
